

EARTH HOUR
Saturday, 26 March 2011 at 8:30-9:30 pm

A great time to celebrate this precious EARTH with family, friends, colleagues, our local communities., and more than a billion other people around the world.

In the dark! By candlelight!

We are made of air, water, and (plants and animals that spring from the) soil.
So, what we are doing to the environment, we are doing to ourselves.

The EARTH is our only home. Let's shut off the lights and send a huge, clear message to government, industry, and communities everywhere to reduce our carbon footprint. Starting now!

For more action, see www.earthhour.org
